Ordering Hints:

1. Review the wigs on our website; take notes on the styles and colors you love.
2. View our 150+ videos on our YouTube Channel and take notes on the styles and colors you love. To find our channel, simply go to www.YouTube.com and look up “Godiva’s Secret Wigs.”
3. Decide how many wigs you want to order for your first order. Remember, all wigs are 50% OFF! Although our minimum opening order is 4 wigs, we know that clients want their wigs asap! So, consultants who carry more stock do sell more. Most consultants begin with 12-36 wigs. Start with as many as you can and continue to add to your inventory when possible. Make your goal to have 50-60 wigs in your inventory for a great assortment that you'll have excellent results with!
4. Think about who your target customer is going to be and order accordingly.
5. If you have never tried Godiva’s Secret Wigs before, try ordering a few wigs that are similar to your own hair style and/or color, so that you can get used to the wigs on yourself first. You will be your very best advertising tool; everywhere you wear your wig, you are advertising!
